OUR PEOPLE

MANAGEMENT TEAM

OUR PEOPLE

Our disciplined military background has instilled a culture of integrity that is the backbone of everything we deliver.

Team

As security specialists, we know our people are our greatest asset. Many of our staff have an Armed Forces background, joining us from among the most prestigious, renowned regiments and battle-honoured brigades. Their military experience ensures our team has the knowledge, training and mentality to succeed in even the most challenging security roles. It's talent that is hard to find.

Every member of our management and operational teams has undergone extensive vetting and training. We are all fully licensed to SIA industry standards, and we have a strong commitment to ongoing training and career development for every member of the team.

Leadership

The Vigilance management team are commercially astute and highly experienced, with extensive security, corporate and military expertise. We excel at hiring the best people and delivering exceptional service to our clients. We run as a tightly knit team - a family - taking great pride in our work.

Values

Vigilance personnel are clearly of a different calibre. Our disciplined military background has instilled a culture of integrity that is the backbone of everything we deliver. We're constantly learning, challenging ourselves to stay the best in the business.

OUR SHARED VALUES

Our Corporate Social Responsibility

As a strongly ethical and moral business, we measure our success against our four guiding principles: act ethically, raise awareness, engage with communities and assist charitably. Many of our clients have a similarly strong focus on Corporate Social Responsibility, and have chosen to partner with us as a result. We're only ever as good as what we're giving back.

Honouring our military personnel

Our close engagement with the Armed Forces empowers ex-servicemen and women to make the most of their valuable training and skills. Joining the Vigilance family gives them a positive route back into civilian life. We offer training, support and structure, and in return they give us their commitment, expertise and work ethic - a very fair trade.

Work in the community

We run fundraising activities and awareness campaigns throughout the year. Our current school building project in Nepal broke ground late last year and is due for completion imminently. Our work in the community is of fundamental importance to us and we will continue to seek out other areas from which we can have a positive impact.
